## PREFACE

Excellence in environmental design requires that facilities be totally usable by the greatest possible number of people. They must be flexible, convenient and safe for the broad range of human variations, no matter what population's physical capabilities. It is the responsibility of those who are involved in designing and building the human environment to create functional spaces for the full range of humans, not for just the "standard man." This is no easy task, considering that most design standards and criteria are based on a concept of the "standard man" at the center of the bell shaped curve depicting humanity. Typically forgotten are Man the Child, Man the Tall, Man the Woman, Man the Disabled. . Yet these variations are the rule in society rather than the standard.

This bibliography is presented to promote an understanding of the broader range of human capabilities and variations.

Comp.  
One further section of the bibliography will be published in the future. It will a compilation of related student thesis from various architectural and other schools. Though research in this area is not complete, a few titles have been compiled. They are available on request from the Paralyzed Veterans of America, Inc.

3-15-79  
I would appreciate the reader sending me any suggestions, recommendations, listings, etc., so that this bibliography may be kept current.

My thanks to Ms. Carolyn Holmes, and Mr Earl Graham and Ms Rita McGaughey, both of the National Easter Seal Society for Crippled Children and Adults, for their considerable support on this project.

PETER L. LASSEN  
Architectural Coordinator  
Paralyzed Veterans of America, Inc  
7315 Wisconsin Avenue, Suite 301W  
Washington, D.C. 20014

New York State Department of Conservation, State Council of Parks and Outdoor Recreation, Outdoor Recreation for the Physically Handicapped: A Handbook of Design Standards, New York State Department of Conservation, State Council of Parks and Outdoor Recreation, Albany, New York (12226), 1967

Standards approved and adopted by the State Council cover adaptations that are recommended for existing parks and for all future construction of public outdoor recreation areas in New York State.

New York State University Construction Fund, Interim Guide: Performance Criteria on Spatial Organization for the Physically Handicapped, New York State University Construction Fund, 194 Washington Avenue, Albany, New York (12210), 1965

New York State University Construction Fund, Making Facilities Accessible to the Physically Handicapped, New York State University Construction Fund, 194 Washington Avenue, Albany, New York (12210), 1967

A comprehensive reference to the design standards suggested of all university buildings. Included are exterior elements such as ramps, walks, parking and intersections. Interior elements include restrooms, bedrooms, elevators, and doors.

U.S. Department of Health, Education and Welfare, Technical Handbook for Facilities Engineering and Construction Manual, Part 4, U.S. Department of Health, Education and Welfare, Department Staff Manual System, Facilities Engineering and Construction Agency, 1973 (Draft)

U.S. Department of Housing and Urban Development, Housing for the Elderly: Minimum Property Standards, with Special Considerations for the Handicapped (HUD PG-46), Department of Housing and Urban Development, Federal Housing Administration, Washington, D.C. (20410), October 1967

U.S. Department of the Interior, Bureau of Outdoor Recreation, Outdoor Recreation Space Standards, U.S. Department of the Interior, Bureau of Outdoor Recreation, Washington, D.C. Available from: U.S. Government Printing Office, Washington, D.C. (20402)

Listing of standards for park and recreation facilities gathered from a wide variety of authorities, agencies and organizations throughout the country. Very good bibliography listing some of the prominent authorities in standard specifications.

1. The first part of the paper discusses the importance of the study of the history of the United States. It is argued that a knowledge of the past is essential for a full understanding of the present and for the development of a sound policy for the future.

2. The second part of the paper discusses the role of the individual in the history of the United States. It is argued that the actions of individuals have played a major role in the development of the country and that it is important to study the lives of the great men of the past.

3. The third part of the paper discusses the role of the government in the history of the United States. It is argued that the government has played a major role in the development of the country and that it is important to study the actions of the government in the past.

4. The fourth part of the paper discusses the role of the people in the history of the United States. It is argued that the actions of the people have played a major role in the development of the country and that it is important to study the actions of the people in the past.

5. The fifth part of the paper discusses the role of the future in the history of the United States. It is argued that the future is a part of the history of the United States and that it is important to study the future in the past.

6. The sixth part of the paper discusses the role of the present in the history of the United States. It is argued that the present is a part of the history of the United States and that it is important to study the present in the past.

7. The seventh part of the paper discusses the role of the past in the history of the United States. It is argued that the past is a part of the history of the United States and that it is important to study the past in the past.

8. The eighth part of the paper discusses the role of the future in the history of the United States. It is argued that the future is a part of the history of the United States and that it is important to study the future in the past.

U.S. Veterans Administration, Facilities for the Handicapped, VA Construction Standard CD-28, U.S. Veterans Administration, 810 Vermont Avenue, Washington, D.C. (20420), 1973

Sets forth the standards to be incorporated in the design of Veterans Administration facilities to ensure that they accommodate the handicapped.

Australia Standards Association, Australian Standard Code of Recommended Practice: Design for Access by Handicapped Persons: Part 1. Public Buildings and Facilities, (Australian Standard CA52, Part 1-1968), Standards Association of Australia, Standards House, 80 Arthur Street, P.O. Box 458, North Sydney, 2060, New South Wales, Australia, 1968

A guide for architects, planners, and government authorities. Prepared by the Australian Council for Rehabilitation of the Disabled in association with the Standards Association.

British Standards Institution, Access for the Disabled to Buildings; Part 1: General Recommendations (British Standard Code of Practice, CP 96, Part 1, 1967), Council for Codes of Practice, British Standards Institution, British Standards House, 2 Park Street, London, W.1, England, \$2.00 (10 shillings) 1967

Defines categories of disability and types of buildings covered by the Code (individual dwelling units excluded); makes general recommendations on design principles and provisions, with 10 pages of diagrams illustrating design principles.

Canadian National Research Council, Buildings Standards for the Handicapped (NRC No. 11430), Supplement No. 5 to the National Building Code of Canada, 1970, National Research Council, Associate Committee on the National Building Code, Ottawa, Canada, 1970. Available from: The Secretary, Associate Committee on the National Building Code, National Research Council, Ottawa, Canada, \$.25

A supplement to the National Building Code of Canada, written as a guide for those interested in design and construction of buildings with provisions for making them accessible to the physically handicapped. Includes alteration, and general information on wheelchair dimensions and functioning.

Netherlands Society for Rehabilitation (Nederlandse Vereiging Voor Revalidatie (NVR)), Architectural Facilities for the Disabled, The Netherlands Society for Rehabilitation, Eisenhowerlaan 142, The Hague, The Netherlands, 1973. Also available from: ICTA Information Centre, Fack S-161 03, Bromma, Sweden

Goldsmith, Selwyn, Designing for the Disabled, Royal In-  
stitute of British Architects, Technical Information Service,  
66 Portland Place, London, W.1., England, 1963. Available  
from: International Society for Rehabilitation of the Dis-  
abled, 219 E. 44th Street, New York (10017), \$7.00

A basic reference book for architects and designers,  
it is probably the most elaborate treatment of the subject  
published to date. Major emphasis is on problems in the  
home. The general checklist is valuable in planning housing  
alterations to accommodate a disabled person. Although it  
is written for British standards, the variations from  
American standards are not great and can still be very  
useful.

Goldsmith, Selwyn, Designing for the Disabled, 2nd Edition, Royal Institute of British Architects, Technical Information Service, 66 Portland Place, London, W.1., England, 1967. Available from: McGraw-Hill Book Company, 330 W. 42nd Street, New York, New York (10036), \$15.00

Research conducted since publication of the first edition has caused Mr. Goldsmith to change his philosophy in regard to the "normality and independence" of the physically handicapped. This revision places the emphasis more on public buildings than domestic housing. This book is one of the landmarks in designing for the handicapped.

Graning, H.M., M.D., The Design of Facilities for the Mentally Retarded: Diagnosis and Evaluation, Education and Living Units, U.S. Department of Health, Education and Welfare (PHS Publication No. 1181-C-1), Public Health Service, Division of Hospital and Medical Facilities, Architectural Engineering Equipment Branch, Washington, D.C., 1966. Available from: Government Printing Office, Washington, D.C. (20402)

Gutman, Ernest M. and Carolyn R.; Forward by Rusk, Howard A., Wheelchair to Independence: Architectural Barriers Eliminated, Charles C. Thomas, 301-327 E. Lawrence Avenue, Springfield, Illinois (62703), 1960; \$6.75

Hilleary, James E., "Buildings for All to Use," AIA Journal, March 1969, Available from: University Microfilm, Inc., 313 North First Street, Ann Arbor, Michigan (48107); also National Society for Crippled Children and Adults, 2023 West Odgen Avenue, Chicago, Illinois (60612), single copies free

Includes design details and an annotated bibliography of Barrier Free Architecture

Hoberman, Morton, "Special Problems in the Rehabilitation of the Physically Handicapped Child," Handicapped and Their Rehabilitation, Charles C. Thomas, 301-327 E. Lawrence Avenue, Springfield, Illinois (62703), 1957

Emotional, educational, and recreational problems encountered by the handicapped individual. Hoberman suggests that for a total rehabilitation of a disability a person must not only overcome the physically intense involvement but also the physiological problems involved with being different from other people.

Holzworth, Karl B., "Restroom Provides for Handicapped," Park Maintenance, January 1970, pp. 8-9, Available from: Park Maintenance, P.O. Box 409, Appleton, Wisconsin (54911)

1. The first part of the paper discusses the importance of the study of the history of the United States. It is argued that a knowledge of the past is essential for a full understanding of the present and for the development of a sound policy for the future.

2. The second part of the paper deals with the question of the role of the individual in the history of the United States. It is shown that the actions of individuals have often been decisive in the course of the nation's development.

3. The third part of the paper considers the influence of the environment on the history of the United States. It is pointed out that the physical and social environment have both played important roles in shaping the nation's development.

4. The fourth part of the paper discusses the question of the future of the United States. It is suggested that a knowledge of the history of the nation is essential for a full understanding of the challenges that lie ahead and for the development of a sound policy for the future.

5. The fifth part of the paper deals with the question of the role of the individual in the history of the United States. It is shown that the actions of individuals have often been decisive in the course of the nation's development.

6. The sixth part of the paper considers the influence of the environment on the history of the United States. It is pointed out that the physical and social environment have both played important roles in shaping the nation's development.

Junius, Ronald J., Twenty Million, Architectural Barriers Project, National Society for Crippled Children and Adults, Chicago, Illinois (mimeograph) (out of print)

A short paper outlining the need for constructive application of design standards in order to make facilities accessible to the disabled.

Langius, A. N., "Civic Facilities for the Handicapped," Michigan Municipal Review, 1970, pp. 110-111. Available from Michigan Municipal Review, 205 South State Street, Ann Arbor, Michigan (48108)

Ludtke, Roland H.; Shefelman, Thomas W., "Environmental Designs," In: Proceedings of the Regional Institute on the Blind Child who Functions on a Retarded Level, Villa Capri Hotel, Austin, Texas, May 8-10, 1969, American Foundation for the Blind, New York, 1969, pp. 33-39

Martner, Edgar B., ed., The Child with a Handicap, Charles C. Thomas, 310-327 East Lawrence Avenue, Springfield, Illinois, (62703), 1959

Provides a selection of material written about the handicapped child and those involved in his care, treatment and well-being. Enlightens the reader to the viewpoint of professionals in the field of handicapped child care. At the conclusion is a directory of camps for the handicapped child and a directory of school services provided for the handicapped child.

McDaniel, James W., Physical Disability and Human Behavior, Pergamon Press, Inc., Maxwell House, Fairview Park, Elmsford, New York (10523), 1969, \$7.95

McMichael, Joan K., Handicap: A Study of Physically Handicapped Children and their Families (Contemporary Community Health Series), originally published in Great Britain by Staples Press, Ltd., 1971; American edition published by University of Pittsburgh Press, Pittsburgh, Pennsylvania (15213), 1972, \$6.95

1. The first part of the paper discusses the importance of the study of the history of the English language. It is noted that the English language has a long and rich history, and that the study of its development is essential for a full understanding of the language.

2. The second part of the paper discusses the importance of the study of the history of the English language. It is noted that the English language has a long and rich history, and that the study of its development is essential for a full understanding of the language.

3. The third part of the paper discusses the importance of the study of the history of the English language. It is noted that the English language has a long and rich history, and that the study of its development is essential for a full understanding of the language.

4. The fourth part of the paper discusses the importance of the study of the history of the English language. It is noted that the English language has a long and rich history, and that the study of its development is essential for a full understanding of the language.

5. The fifth part of the paper discusses the importance of the study of the history of the English language. It is noted that the English language has a long and rich history, and that the study of its development is essential for a full understanding of the language.

6. The sixth part of the paper discusses the importance of the study of the history of the English language. It is noted that the English language has a long and rich history, and that the study of its development is essential for a full understanding of the language.

7. The seventh part of the paper discusses the importance of the study of the history of the English language. It is noted that the English language has a long and rich history, and that the study of its development is essential for a full understanding of the language.

8. The eighth part of the paper discusses the importance of the study of the history of the English language. It is noted that the English language has a long and rich history, and that the study of its development is essential for a full understanding of the language.

9. The ninth part of the paper discusses the importance of the study of the history of the English language. It is noted that the English language has a long and rich history, and that the study of its development is essential for a full understanding of the language.

10. The tenth part of the paper discusses the importance of the study of the history of the English language. It is noted that the English language has a long and rich history, and that the study of its development is essential for a full understanding of the language.

Rosow, Irwig, Social Integration of the Aged, Free Press, New York, 1967

Rothschild, Constantine, The Sociology and Social Psychology of Disability and Rehabilitation, Random House, New York, 1970

This book contains considerations of the dynamics and the results of the rehabilitation process as it takes place under the influence of a number of institutional, practical and ideological motives and contradicting realities. The various topics include: (1) societal response to disability; (2) the career of the disabled; (3) the sociology and social psychology of disability and rehabilitation; (4) disability and work; (5) the successful rehabilitant; (6) the fate of the rehabilitated person; and (7) recommendations and projections about disability in the future.

Schoenbohm, W. B., Planning and Operating Facilities for Crippled Children, Charles C. Thomas, 310-327 East Lawrence Avenue, Springfield, Illinois (62703), 1962

Provides helpful information on building and operating special facilities for children with crippling disabilities. Can be most useful to those responsible for building such facilities. Discusses the selection of an architect, the importance of choosing the correct site and the aspects of alteration in the construction of such facilities. A section on camps for crippled children is also included.

\_\_\_\_\_, Planning Areas and Facilities for Health, Physical Education and Recreation, Appendix H and I, American Association for Health, Physical Education and Recreation, Washington, D.C., 1966

The first part of the paper discusses the importance of the study of the history of the English language. It is noted that the English language has a long and rich history, and that the study of its development is essential for a full understanding of the language. The paper then goes on to discuss the various factors that have influenced the development of the English language, including the influence of other languages, the influence of social and cultural changes, and the influence of technological advances.

The second part of the paper discusses the importance of the study of the history of the English language. It is noted that the English language has a long and rich history, and that the study of its development is essential for a full understanding of the language. The paper then goes on to discuss the various factors that have influenced the development of the English language, including the influence of other languages, the influence of social and cultural changes, and the influence of technological advances.

The third part of the paper discusses the importance of the study of the history of the English language. It is noted that the English language has a long and rich history, and that the study of its development is essential for a full understanding of the language. The paper then goes on to discuss the various factors that have influenced the development of the English language, including the influence of other languages, the influence of social and cultural changes, and the influence of technological advances.

The fourth part of the paper discusses the importance of the study of the history of the English language. It is noted that the English language has a long and rich history, and that the study of its development is essential for a full understanding of the language. The paper then goes on to discuss the various factors that have influenced the development of the English language, including the influence of other languages, the influence of social and cultural changes, and the influence of technological advances.

Damon, Albert; Stoudt, Howard W.; McFarland, Ross A., The Human Body in Equipment Design, Harvard University Press, Cambridge, Massachusetts, 1966

A study of physical anthropology undertaken by the Department of Anthropology at Harvard University. With charts and diagrams it illustrates the human body dimensions and their relationship to the design of equipment and clothing. A detailed explanation of the body strength, motion, composition, and tolerance to physical and mechanical force is undertaken. An excellent book for those who are concerned with design that is to be used by the human body.

Dreyfuss, Henry, Designing for People, Simon and Schuster, New York, 1955

Dreyfuss, Henry, The Measure of Man, Whitney Library of Design, New York, 1968

This booklet, compiled by Industrial Designer Henry Dreyfuss, is a must for anyone concerned with designing facilities that are to be used by humans. It contains 30 anthropometric charts of both males and females in standing, seated and seated at control panels situations. Each diagram is supplemented by a checklist and other explanations necessary in such designs. Also included are size accommodations for seats, control panels, etc..

Subscription price, Five Dollars Per Annum in Advance. Single Copies, Fifteen Cents. Entered as Second-Class Matter, October 3, 1917. Postpaid.

Acceptance for mailing at special rate of postage provided for in Act of October 3, 1917. Authorized by Act of October 3, 1917. Postpaid.

Report of a task force, Assignment: to explore and test means of reaching architects (and others who influence building

decisions), with concepts and usable materials which can be translated into decisions for barrier free architecture.

National Society for Crippled Children and Adults, Architectural Barriers Progress Report, November 1962 to June 1963, National Society for Crippled Children and Adults, 2023 West Ogden Avenue, Chicago, Illinois (60612) (Out of print)

Describes the objectives and procedures of the national program to eliminate and prevent architectural barriers to the handicapped, and includes a state by state progress report.

National Society for Crippled Children and Adults, Proceedings of the National Institute on Making Buildings and Facilities Accessible to and Usable by the Physically Handicapped: A National Institute on Architectural Barriers, November 21-24, 1965, Chicago, Illinois, National Society for Crippled Children and Adults, 2023 West Ogden Avenue, Chicago, Illinois (60612). Available from: Architectural Barriers Project of the National Society for Crippled Children and Adults, 2023 West Ogden Avenue, Chicago, Illinois (60612) (Out of print)

Papers covered such subjects as the problems and progress in elimination of architectural barriers and the prevention of barriers through design.

U.S. Department of Health, Education and Welfare, Inaccessible Buildings: A Special Report on Architectural Barriers, National Commission on Architectural Barriers to Rehabilitation of the Handicapped, Vocational Rehabilitation Administration, U.S. Department of Health, Education and Welfare, July 1967

U.S. Department of Health, Education and Welfare, Design for all Americans, U.S. Department of Health, Education and Welfare, National Commission on Architectural Barriers to Rehabilitation of the Handicapped, Washington, D.C., 1967. Available from: U.S. Government Printing Office (20402), \$.50

This report attempts to determine to what extent architectural barriers impede access to buildings and facilities, and what is being done to eliminate such barriers and to prepare plans and proposals to achieve barrier free access. Includes a bibliography of publications related to handicapped design.

U.S. Department of Health, Education and Welfare, The Rehabilitation Services Administration Program, U.S. Department of Health, Education and Welfare, 1968. Available from: Rehabilitation Services Administration, U.S. Department of Health, Education and Welfare, Washington, D.C. (20201)

Describes Federal financial and technical support of rehabilitation programs, including programs to eliminate architectural barriers.

President's Committee on Employment of the Physically Handicapped, Architectural Barriers and the Handicapped, National Society for Crippled Children and Adults, 2023 West Odgen Avenue, Chicago, Illinois (60612), (Out of print)

Provides, in capsule form, facts on the barriers problem and the crucial need for a solution based on the American Standards Association Standard Specifications.

President's Task Force on the Aging, Toward A Better Future for the Elderly, U.S. President's Task Force on the Aging, Washington, D.C., 1970

International Society for Rehabilitation of the Disabled, ISRD Conference: "The Physically Disabled and Their Environment," Stockholm, October 12-19, 1961. Report of the Proceedings, 1962. Available from: International Society for Rehabilitation of the Disabled, 219 East 44th Street, New York, New York (10017) or ISRD Technical Section, c/o SVCK, Ibsengatan 8-14, Bromma 3, Sweden

Contains conference discussions on architectural planning of homes for the disabled, homemaking methods and technical aids for laundering, cooking and clothes and their care, with additional information in appendices on house design and financing of housing.

Describes a rehabilitation center in Mobile, Alabama, built for inpatient and outpatient treatment of disabled persons.

\_\_\_\_\_, "First Complete Facilities for Paraplegics," Architectural Record, Volume 125, No. 3, March 1959, pp. 220-222

Shows the design of an addition to a VA Hospital at Long Beach, California, which contained the first specially planned hospital facilities for paraplegics built in the United States.

\_\_\_\_\_, "Housing for the Disabled," Way Ahead, Volume 9, No. 4, 1962, pp. 20-23

Sets forth design information necessary to make all facilities in a house usable by persons with non-ambulatory disabilities.

\_\_\_\_\_, "Housing Units for Paraplegic Veterans," Progressive Architecture, Volume 28, No. 2, February 1947, pp. 70-71

Housing units for paraplegics are described with drawings of individual rooms, including a bathroom, work-room and a bedroom.

\_\_\_\_\_, "Notes on Components for Use by the Handicapped," Architectural Record, Volume 140, October 1966, pp. 231-232

\_\_\_\_\_, "Open Passage for the Handicapped," Progressive Architecture, Volume 42, No. 12, December 1961, pp. 148-151

The design of a hospital for aged and disabled patients in Jersey City, New Jersey, is described. Planned as a combination hospital, hotel and housing for the aged, the building provides for the physical safety and emotional security of the patients.

\_\_\_\_\_, "Pennsylvania Builds a New Kind of Rehabilitation Center," Architectural Record, Volume 120, No. 1, July 1956, pp. 163

Describes the rehabilitation center at Johnstown, Pennsylvania, which was designed to train physically handicapped persons for gainful employment.

\_\_\_\_\_, "Planning for the Handicapped," Progressive Architecture, Volume 34, No. 4, April 1953, pp. 89-97

Covers the design of a house for a paraplegic, a training and recreation center for the blind, and a dormitory for deaf children.

\_\_\_\_\_, "Ramps Not Steps: Hospitals Urged to Advocate Barrier-Free Environment," Modern Hospital, January 1972, pp. 41

\_\_\_\_\_, "Rehabilitation Centers," Architectural Record, Volume 127, No. 1, January 1960, pp. 147-156

\_\_\_\_\_, "School for Handicapped Children," Arts and Architecture, Volume 77, No. 9, September 1960, pp. 18-19  
Shows the floor plan and photographs of a school designed for handicapped children.

\_\_\_\_\_, "Three Schools for Deaf Children," Architectural Record, Volume 122, No. 6, December 1957, pp. 151-158

Outlines the design of three schools for children handicapped by hearing disabilities.

\_\_\_\_\_, Rehabilitation Record, November/December, 1966. Available from: Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. (20402), single copies

A special section of this issue titled "Accent on Access" contains brief papers pertaining to architectural barriers and some results of research efforts to overcome them.

Workmen's Compensation Board Hospital and Rehabilitation Center, Journal, Royal Architectural Institute of Canada, Volume 35, No. 11, November 1958, pp. 399-405

Illustrates the design and construction of a hospital and rehabilitation center at Toronto, Ontario, built for treatment of ambulant and non-ambulant patients plus occupational training for rehabilitation of disabled persons.

## REHABILITATION, EXTENDED CARE FACILITIES AND HOSPITALS

Allan, W. Scott, Rehabilitation: A Community Challenge, John Wiley and Sons, 605 Third Avenue, New York, New York (10016), 1958, \$6.95

See especially Chapter 8, "The Recreation Center," pp. 45-66

Bengson, Evelyn M., Guide to Planning and Equipping a Handicraft Facility for a Nursing Home Activity Program, Washington State Department of Health, Public Health Building, Olympia, Washington (98501), 1964, \$2.00 plus \$.24 postage. Available from: Mrs. Vera McCord, Coordinator, Rehabilitation Education Service Unit, Washington State Department of Health (Checks should be made payable to Treasurer, State of Washington)

An aid for the nursing home administrator planning to install an extensive (or limited) craft area. The guide is quite specific in regard to location, space requirements, and special features of equipment. Suggested floor plans for a single-room and multiple-room activity area are included.

Denholm, Donald H.; Baker, Richard J., A Safety Program for Rehabilitation Facilities (Occasional Paper No. 5), National Easter Seal Society for Crippled Children and Adults, 2023 West Ogden Avenue, Chicago, Illinois (60612), October 1972; single copies, free; additional copies, \$.25 each

This paper presents a program designed and developed by the School of Education, Auburn University, and the Vocational Rehabilitation Service, State Department of Education, Montgomery, Alabama, and reproduced by the Easter Seal Society in the interest of all rehabilitation facilities affected by the William Steiger Occupational Safety and Health Act of 1970 (OSHA).

Engberg, Eugenie; Jensen, Lars Fjord; Lange, Carl, Rehabilitation and Care of the Handicapped, Ministries of Labour and Social Affairs, Copenhagen, Denmark, 1967. Available from: Society and Home for Cripples, 34, Esplanaden, Copenhagen, K., Denmark

Fitzpatrick, Thomas K., Selected Rehabilitation Facilities in the United States: An Architect's Analysis, Social and Rehabilitation Service, Rehabilitation Services Administration, U.S. Department of Health, Education and Welfare, 1971. Available from: Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. (20402), \$.65

Gruffydd, Bodfan, Fila. Landscape Architecture for New Hospitals, King Edwards Hospital Fund for London, 14 Palace Court, London, W.2, 1967

Helsel, Elsie; Graham, Earl C., Tomorrow is Today: Planning Ahead for Long Term Care Legally, Financially, 1966. Available from: United Cerebral Palsy Association, 66 East 34th Street, New York, New York (10016), \$.30

Hoover, Roy M., M.D., General Architectural Principles for Rehabilitation Facilities: A Rehabilitation Unit in a General or Special Hospital: The Comprehensive Rehabilitation Center (Ideal Services Series Volume 1), Florida Division of Vocational Rehabilitation, 1967. Available from: D. Allen Brabham, Coordinator, Rehabilitation Facilities Planning, Florida Division of Vocational Rehabilitation, 725 South Bronough Street, Tallahassee, Florida (32304)

The three chapters in this booklet are intended to help communities identify the kind of rehabilitation facility that might best be planned to fit their needs and resources. The third chapter briefly outlines criteria for the physical plant.

Koestler, Frances A., ed., The COMSTAC Report: Standards for Strengthened Services, Commission on Standards and Accreditation of Services for the Blind, 1966. Available from: COMSTAC, P.O. Box 373, Old Chelsea Station, New York, New York (10011); hardbound, \$6.00 (10 or more copies, \$5.00); paperback, \$3.00 (10 or more copies, \$2.00)

Laging, Barbara M., How to Design a Non-Person: A Critical Look at an environment for the Elderly, National Society of Interior Designers, National Headquarters, 315 East 62nd Street, New York, New York (10021), 1971, \$.50

This paper delivered at the National Housing Seminar in 1971 criticizes the tendency to design institutions in dehumanizing and regimented ways. Suggestions are made for more thoughtful planning.

Nebe, Henry J.; Villemarette, Julius M., ed., The Delgado System: Guidelines Manual for Rehabilitation Center Planning, Delgado Press, Delgado College, 615 City Park Avenue, New Orleans, Louisiana (70119), 1968, \$2.00

The Delgado Vocational Rehabilitation Center was established in 1962 by a cooperative agreement between the Louisiana Division of Vocational Rehabilitation and Delgado College Board of Managers. The booklet describes the objectives of the Center, its organizational structure and its vocational, medical and physical plant and equipment.

Osmon, Fred Linn, Pattern for Designing Childrens' Centers, Educational Facilities Laboratories, 477 Madison Avenue, New York (10020)

Rogerson, Robert W.K.C.; Spence, Philip H., A Place to Work: The Working Environment of the Disabled, The Scottish Branch, British Red Cross Society, 1970. Available from: Robert MacLehose and Co., Ltd., University Press, Glasgow, W.3, Scotland 3 pounds

Two scottish architects report on their visits to Rehabilitation facilities in a number of European countries. They describe and discuss schools, rehabilitation centers, sheltered workshops, and residential programs.

Rusalem, Herbert, Coping with the Unseen Environment: an Introduction to the Vocational Rehabilitation of Blind Persons, Teachers College Press, Columbia University, 1234 Amsterdam Avenue, New York, New York (10027), 1972, \$11.50

Salmon, F. Cuthbert; Salmon, Christine F., Rehabilitation Center Planning: An Architectural Guide, the Pennsylvania State University Press, University Press Building, University Park, Pennsylvania (16802), 1959, \$15.50

A comprehensive guide for architects and others interested in the planning of rehabilitation centers. Discusses the various activities in a center and provides the data necessary for design.

Salmon, F. Cuthbert; Salmon, Christine F., Sheltered Workshops: An Architectural Guide, Office of Engineering Research, Oklahoma State University, Stillwater, Oklahoma, (74075), 1966, \$.90

Describes the role of the sheltered workshop in the community and provides programming and planning information specific to this type of building. Application of architectural planning principles are illustrated; since no two workshops are alike, there is no attempt to establish standards.

Salmon, F. Cuthbert; Salmon, Christine F., The Blind: Space Needs for Rehabilitation, Office of Engineering Research, Oklahoma State University, Stillwater, Oklahoma (74075), 1964, \$2.50

A guide to the designing of rehabilitation centers serving the blind and partially sighted, based on observations made by the project staff in visits to 14 centers and institutions. Gives architectural recommendations of a general nature and information necessary for the architect's basic understanding of space requirements of various departments and their personnel. Also discusses space requirements for dormitory facilities for 20 clients.

Schoenbohm, Wilko B., Planning and Operating Facilities For Crippled Children, Charles C. Thomas, 301-327 East Lawrence Avenue, Springfield, Illinois (62703), 1962, \$11.50

Part III of this book, "Planning a camp for crippled children," (pp. 2329-291) is mainly a discussion for preliminary planning of residential camps, the various buildings, to be included, and the planning of special facilities for swimming and recreational activities.

Tickton, Reva S., A Guide to Comprehensive Rehabilitation Services to the Homebound Disabled (Monograph No. 4), National Association of Sheltered Workshops and Homebound Programs, Inc., April 1961

Winston, Jack A., Concepts of Residential Care: An Architectural Guide, United Cerebral Palsy Association of New York State, 220 West 42nd Street, New York, New York (10036), 1960, \$1.00

Standards for establishing residential services for the cerebral palsied adult; also adaptable for facilities serving persons with other disabilities and of other age groups.

\_\_\_\_\_, Changing Patterns in Residential Services for the Mentally Retarded, The President's Committee on Mental Retardation, Washington, D.C., 1969

\_\_\_\_\_, A Report on the Development of an Activities Building for the Woodrow Wilson Rehabilitation Center, Fishersville, Virginia, Woodrow Wilson Rehabilitation Center Foundation, 1967

Presents specifications and floor plans for an activities building designed to provide areas for a variety of social as well as recreational actions.

American Hospital Association, Physical Therapy Service: A Guide to Organization and Management (Revised Edition), American Hospital Association, 840 North Lake Shore Drive, Chicago, Illinois (60611), 1965, \$1.25

A revision of the 1957 publication (Physical Therapy: Essentials of a Hospital Department), expanded to include physical therapy services in home care programs, nursing homes, and other long-term care facilities; covers objectives and methods, staffing administration and finance, and physical facilities and equipment necessary.

American Occupational Therapy Association, Occupational Therapy: Manual on Administration, American Occupational Therapy Association, 251 Park Avenue, South, New York, New York (10010), 1965, \$2.50

See especially Chapter 6, Physical Facilities. pp. 79-97

Commission on Accreditation of Rehabilitation Facilities, Standards Manual for Rehabilitation Facilities, Commission on Accreditation of Rehabilitation Facilities, 645 North Michigan Avenue, Chicago, Illinois (60611), 1968. Manual and service, one year \$10.00; 3 years, \$25.00 (application for accreditation survey free)

International Association of Rehabilitation Facilities, Some Current Concerns of Rehabilitation Facilities (Special Report 1972-2; Department of Health, Education and Welfare Publication No. SRS 73-25052), U.S. Department of Health, Education and Welfare, Division of Service Systems, Rehabilitation Services Administration, Washington, D.C. (20201), 1972

Joint Commission on Accreditation of Hospitals, Standards for Residential Facilities for the Mentally Retarded, Joint Commission on Accreditation of Hospitals, Accreditation Council for Facilities for the Mentally Retarded, 1971. Available from: (paperbound) American Association on Mental Deficiency, 5201 Connecticut Avenue, Washington, D.C. (20015); \$1.00; (Loose-leaf Binder including all standards, a two-year updating service for revisions as issued), Accreditation Council for Facilities for the Mentally Retarded, 645 North Michigan Avenue, Chicago, Illinois (60611), \$6.00

These standards, which were adopted in May 1971, relate to resident living or domiciliary services provided by residential facilities, organization and administrative practices and professional and special services and programs that may be required by the residents of facilities. The standards are to be subject to continuous review and revisions.

National Council for Homemaker Services, Readings in Homemaker Service: Selected Papers Presenting the Background, Uses and Practices of Homemaker-Home Health Aide Programs, National Council for Homemaker Services, New York, New York, (10019), 1969

U.S. Veterans Administration, Facilities for the Handicapped, VA Construction Standard, CD-28, U.S. Veterans Administration 810 Vermont Avenue, Washington, D.C. (20420), 1973

Sets forth the standards to be incorporated in the design of Veterans Administration facilities to ensure that they accommodate the handicapped.

United Nations Department of Economic and Social Affairs, Basic Equipment for Rehabilitation Centers: Part I, Artificial Limbs and Braces (ST/SOA/47), United Nations Department of Economic and Social Affairs, 1962. Available from: Rehabilitation Unit, United Nations, United Nations Building, New York (10017)

Covers floor plans and equipment for the operation of workshops for artificial limbs and braces; floor plans were contributed by the Institute of Rehabilitation Medicine.

United Nations Department of Economic and Social Affairs, Basic Equipment for Rehabilitation Centers: Part II, Physical Therapy (ST/SOA/48), United Nations Department of Economic and Social Affairs, 1962. Available from: Rehabilitation Unit, United Nations, United Nations Building, New York (10017)

Covers building requirements, architectural planning, and basic equipment; two floor plans are included.

United Nations Department of Economic and Social Affairs, Basic Equipment for Rehabilitation Centers: Part III, Occupational Therapy (ST/SOA/55), United Nations Department of Economic and Social Affairs, 1964. Available from: Rehabilitation Unit, United Nations, United Nations Building, New York (10017)

Contains suggestions on planning space and equipment for occupational therapy departments; sample floor plans of departments in five different countries are included.

## SCHOOLS, COLLEGES AND EDUCATIONAL FACILITIES

Abeson, Alan; Blacklow, Julie, Environmental Design: New Revelance for Special Education, Council for Exceptional Children, 1411 South Jefferson Davis Highway, Arlington, Virginia (22202), 1971, \$6.95

Findings and recommendations of a project to determine the status of the special education environment, along with statements on effective planning mechanisms and strategies, solutions to specific environmental problems and methodologies for further research.

Anderson, Elizabeth M., Making Ordinary Schools Special, The College of Special Education, 85 Newman Street, London, W.1., England

Report on the integration of physically handicapped children in Scandinavian schools.

Bednar, M.; Haviland, D., The Role of the Physical Environment in the Education of Children with Learning Disabilities, Center for Architectural Research, RPI, Troy, New York. Also available from: The Educational Facilities Lab, The Ford Foundation, New York, New York

Bryant, Daniel, "Designing for the Mentally Handicapped," (Reprinted from Rehabilitation Literature, November 1964). Available from: National Easter Seal Society for Crippled Children and Adults, 2023 West Ogden Avenue, Chicago, Illinois (60612), 1964, \$.10

Design elements to be considered in planning a school or training center for the mentally retarded, specifically those planned into the Shore School and Training Center in Evanston, Illinois, a total training and vocational adjustment center opened in 1962 and now being enlarged.

DePape, D.J.; Labossiere, R.L.; Veenhoven, M.A.; Wilkinson, J.H., "Wheelchair Facilities on the University of Manitoba - Fort Garry Campus: Physical and Attitudinal Survey", for the Canadian Paraplegic Association, Summer 1971. Available from: The Canadian Paraplegic Association, 153 Lyndhurst Avenue, Toronto, Ontario, M5R3A2, Canada

Gordon, Ronnie, The Design of a Pre-School "Learning Laboratory" in a Rehabilitation Center (Rehab Monograph 49), New York University Medical Center, Institute of Rehabilitation Medicine, 400 East 34th Street, New York, New York (10016), 1969, \$3.00

The pre-school program at IRM is designed to fulfill therapeutic diagnostic and evaluative research and teaching roles. Details are given of the room, space allocations for activities, a window unit, housekeeping unit, easel and workbench accessible to multi-handicapped children, furniture with insets for wheelchairs, and the use of handrails.

Gordon, Ronnie, The Design of a Pre-School Therapeutic Playground: An Outdoor "Learning Laboratory." (Rehab Monograph 47), Institute of Rehabilitation Medicine, New York University Medical Center, 400 East 34th Street, New York, New York (10016), 1972, \$4.50

Hall, Robert E.; Lehman, Eileen F., Some Colleges and Universities with Special Facilities to Accommodate Handicapped Students: A Directory, U.S. Office of Education, U.S. Department of Health, Education and Welfare, Washington, D.C., 1967. Available from: National Easter Seal Society for Crippled Children and Adults, 2023 West Ogden Avenue, Chicago, Illinois (60612)

Hathway, Winifred, Education and Health of the Partially Seeing Child (Revised by Franklin M. Foote, Dorothy Bryan and Helen Gibbons), Columbia University Press, 2960 Broadway, New York, New York (10027), 1959

Chapters 11, 12 and appendix 2 include discussions of physical features of the special classroom, its equipment and facilities.

Mackie, Romaine, School Housing for Physically Handicapped Children (Bulletin No. 17), U.S. Department of Health, Education and Welfare, Office of Education, 1951. Available from: U.S. Government Printing Office, Washington, D.C. (20402), \$.15

McGowan, John F., Project Director; Gust, Tim, Project Coordinator, Preparing Higher Education Facilities for Handicapped Students: Final Report, 1968. Available from: Coordinator, Services for Handicapped Students, 220 Parker Hall, University of Missouri, Columbia, Missouri (65201)

This is the final report for VRA Research and Demonstration Grant RD-629, U.S. Vocational Rehabilitation Administration. With VRA support, the University of Missouri in 1959 began a program to modify its physical plant and educational facilities for the benefit of handicapped students

Schoenbohm, Wilko B., Planning and Operating Facilities for Crippled Children, Charles C. Thomas, 301-327 East Lawrence Avenue, Springfield, Illinois (62703), 1962, \$11.50

Specifications with illustrations and references for planning a hospital-school for crippled children, non-residential school and treatment facilities and camping facilities.

Tucker, William V., ed., Higher Education and Handicapped Students, An Administrative Handbook, Kansas State Teacher College, Kansas, 1964

A guide for university personnel in developing plans and procedures for accommodating handicapped college students. A survey of special facilities at schools of higher education throughout the Nation.

Wessman, Lennart, Organization of Special Education in Sweden, Skolverstyrelsen (The National Board of Education), Hantverkargatan 25, Fack, S-104, 22, Stockholm 22, Sweden (mimeographed), 1971

Wolf, James M., Physical Facilities for Exceptional Children in the Schools, 1968. Available from: Design Specialty, Box 175, Balboa, Canal Zone, \$3.25

A portfolio of materials containing the author's article (9 pages) of the same title, 13 page bibliography of reference materials collected from state departments of special education, photocopies of "What You Should Know About Teaching Handicapped Children" (Reprinted from School Management) and guidelines for building and equipping special education facilities for children in various categories.

Yuker, Harold E., et. al., The Modification of Educational Equipment and Curriculum for Maximum Utilization by Physically Disabled Persons: the Transportation of Physically Disabled Students (Human Resources Study No. 10), Human Resources Center, Albertson, LI, New York (11507), 1967

The first of a series of six monographs dealing with various aspects of special education for the severely disabled. Others in the series of pertinence to architectural planning are: Design of a school for physically disabled students (No. 8); Education and School Equipment for physically disabled students (No. 9).

Connecticut State Department of Education, Plan for Me (Bulletin No. 63), Connecticut State Department of Education, 600 Asylum Street, Hartford, Connecticut (06115), 1955

Kansas State Teachers College, Higher Education and Handicapped Students - An Administrative Handbook, Emporia, 1964

A guide for university personnel in developing plans and procedures for accommodating handicapped college students. A survey of special facilities at schools of higher education.

New York State University Construction Fund, Making Facilities Accessible to the Physically Handicapped, New York State University Construction Fund, 194 Washington Avenue, Albany, New York (12210), 1967

Discusses criteria or physical facilities of a university in terms of the total program of educational objectives of function, environment, and maintenance and operation. A film on the November 1966 seminar on the subject is also available.

Texas A&M University, Environmental Criteria: MR Pre-School Day Care Facilities, Research Center, College of Architecture and Environmental Design, Texas A&M University, College Station, Texas (77843), 1971

Intended as a working document for educators, administrators, architects, and designers who are developing pre-school day care facilities for mentally retarded, culturally deprived, and normal children, this report provides planning and design guidelines for the creation of a physical environment that will effectively implement the pre-school program.

U.S. Department of Health, Education and Welfare, Mobility for Handicapped Students, U.S. Department of Health, Education and Welfare, 1968. Available from: Rehabilitation Services Administration, U.S. Department of Health, Education and Welfare, Washington, D.C. (20402)

Lists institutes of higher education that can accommodate disabled students and includes checklists of their barrier free features.

## URBAN PLANNING

Chapin, F. Stuart, Urban Land Use Planning, University of Illinois Press, Urbana, Illinois, 1965

Muller, Henrik, Rorelsehindrades Stadsbygdsmljo - en studie fran Hogdalen (City Suburb and Environment for Disabled Persons - a study of Hogdalen), Stockholm, 1961

Describes the means by which a built-up area can be rendered suitable for the disabled. Recommendations for community planning set forth in this report are the results of tests conducted with a person in a wheelchair in the Stockholm suburb of Hogdalen.

Muller, Henrik, Well Planned Town Centers -- A Contemporary Demand of the Handicapped, ICTA Information Center, Fack S-161 03 Bromma 3, Sweden (mimeographed), 1968

Wilson, Robert L., Urban Living Qualities from the Vantage Point of the Elderly, Institute for Research in Social Sciences, University of North Carolina, Chapel Hill, North Carolina, 1960

Edinburgh University - Department of Urban Design and Regional Planning, Planning for Disabled People in the Urban Environment. Available from: Central Council for the Disabled, 34 Ecclestone Square, London, S.W.1., England, 1969, 15 shillings

This study, begun October 1967, was conducted by the Planning Research Unit of the Department of Urban Design and Regional Planning, Edinburgh University, and was under the direction of Professor P. Johnson-Marshall. The study is concerned with the implication of town center design for the physically handicapped.

## HOUSING - GENERAL

Brattgard, S.O., Normal Bostaden och de Rorelsehindrade, Department of Handicap Research, University of Goteborg, Sweden, 1970

A condensed set of design criteria (in Swedish).

Callender, Mary C.; Corcoran, Susan Pike, Bibliography on Home Management, with Emphasis on Work Simplification for Handicapped Homemakers, Handicapped Homemaker Research Center, School of Home Economics, University of Connecticut, Storrs, Connecticut (06268), 1969. Price list on request.

Donahue, Wilma, ed., Housing the Aging; with a foreword by Everett J. Soop, University of Michigan Press, Ann Arbor, Michigan, 1954, \$3.75

Presents papers from a 1952 Conference on the Aging, with data on how to house both the well and the infirmed.

Fenton, Joseph, Residential Needs of Severely Physically Handicapped Non-retarded Children and Young Adults in New York State (Rehabilitation Monograph No. 46), A report to the Honorable Nelson A. Rockefeller, Governor of the State of New York, Institute of Rehabilitation Medicine, 400 East 34th Street, New York, New York (10016), 1972, \$2.50

Recommendations resulting from a study on the long-term residential needs of severely physically handicapped non-retarded children and adults either in private dwellings or in group living residential facilities, depending on the severity of disability.

Fishman, Paul L., Adaptive Housing for the Physically Handicapped, Tufts-New England Medical Center, Boston, Massachusetts, October 1971

This excellent study of housing needs for the handicapped was produced under Social and Rehabilitation Services Grant No. 16-P-56800/1-06 (U.S. Department of Health, Education and Welfare).

Goldsmith, Selwyn, "Housing for the Disabled," Official Architecture and Planning, May 1968, pp. 635-640

Helsel, Elsie D., Ph.D., "Avenues of Action for Long Term Care of the Multiply Handicapped," Rehabilitation Literature, September 1965. Available from: National Society for Crippled Children and Adults, 2023 West Ogden Avenue, Chicago, Illinois (60612)

Jeffrey, Dorothy A., "A Living Environment for the Physically Disabled," Rehabilitation Literature, April 1973, pp. 98-103. Available from: National Easter Seal Society for Crippled Children and Adults, 2023 West Ogden Avenue, Chicago, Illinois (60612), (Reprint A-238), \$.10

Stresses the need to provide housing that will assist the physically handicapped to live and function as independently as possible. Discusses adapted, specialized, and accessible types of housing and identifies key issues involving the living environment.

Kira, Alexander, "Housing Needs of the Aged (With a Guide to Functional Planning for the Elderly and Handicapped)", (Reprint from Rehabilitation Literature, December 1960), Housing Research Center, Cornell University, Ithaca, New York (14850), 1960. Available from: National Easter Seal Society for Crippled Children and Adults, 2023 West Ogden Avenue, Chicago, Illinois (60612), free on request

Discusses types of housing needed and includes design and planning criteria for housing for the aged.

Larsson, Nils; Kerr, Douglas, Housing the Handicapped, Central Mortgage and Housing Corporation, Head Office, Montreal Road, Ottawa, Ontario, Canada, August 1973

This excellent publication is an advisory document dealing with desirable standards of housing for physically handicapped persons. The design criteria developed here are based upon an evaluation of Canadian and International standards and research, as well as the experience Central Mortgage and Housing Corporation has gained in building dwelling units for the handicapped. It is expected that these advisory criteria will be modified in the future as further experience and advice is gained in the field.

Larsson, Nils, Seminar - The Fokus Society, Information Paper 1, Architectural and Planning Division, Central Mortgage and Housing Corporation, Head Office, Montreal Road, Ottawa, Ontario, Canada, September 1973

A discussion of Sweden's Fokus Society and its housing concepts for the handicapped. Discussion is both in French and English.

Lefkowitz, Larry M., A Summary: Governmental Housing Programs for Low and Moderate Families, National Urban Coalition (Nonprofit Housing Center), 1717 Massachusetts Avenue, N.W., Washington, D.C., April 1970

Leschly, Vibeke; Kjaer, Borge; Kjaer, Alice, General Lines in Designs of Dwellings for Handicapped Confined to Wheelchairs, Part 2, Danish National Association for Infantile Paralysis, Hellerup, Denmark, 1960.

A physiotherapist and two architects concentrate on the layout of kitchens for people confined to the wheelchair.

Leschly, Vibeke; Exner, Inger, et. al., "General Lines in Designs of Dwellings for Handicapped Confined to Wheelchairs," Communications from the Testing and Observation Institute of the Danish National Association for Infantile Paralysis, Pamphlet No. 3, 1969

Burton, Alice M.; Trotter, Virginia Y., M.D., Kitchen Storage, No Stoop, No Stretch for Physically Limited Homemakers (Catalog EC-66-2201), Nebraska Heart Association and University of Nebraska College of Agriculture and Home Economics in conjunction with the U.S. Department of Agriculture

Burton, Alice M.; Trotter, Virginia Y., M.D., Sink Centers Easy to Use for Physically Limited Homemakers (Catalog EC-66-2202), Nebraska Heart Association and University of Nebraska College of Agriculture and Home Economics in conjunction with the U.S. Department of Agriculture

Hodgeman, Karen; Warpeha, Eleanor, Homemaking Aids for the Disabled, Sister Kenny Institute, Minneapolis, Minnesota, 1973, \$1.75. Available from: The Publications Department, Sister Kenny Institute, 1800 Chicago Avenue, Minneapolis, Minnesota (55404)

This manual from the Sister Kenny Institute, suggests special equipment and techniques for the homemaker who uses a wheelchair, for the person who can use only one hand, and for anyone whose ability is limited by weakness or incoordination. Adaptations and Techniques for the Disabled Homemaker presents a general approach to saving energy and simplifying housework, as well as directions for accomplishing specific tasks. Adaptive devices are shown, and directions are given for constructing and purchasing equipment. The

32-page manual, which contains more than 60 photographs and drawings, replaces an earlier Kenny publications, Homemaking Aids for the Disabled. The new manual is designed as an aid for occupational therapists, nurses, patients and families.

Howie P.M., A Pilot Study of Disabled Housewives in Their Kitchens, The Disabled Living Activities Group of the Central Council for the Disabled, 39 Victoria Street, London, S.W.1, England, 25 shillings

Klinger, Judith L.; Frieden, Fred H.; Sullivan, Richard A., Mealtime Manual for the Aged and Handicapped, Essandess Special Editions, Simon and Schuster, Inc., 630 Fifth Avenue, New York, New York (10020), 1970, \$5.95

Includes sections on kitchen planning, storing, safety, appliances, and special aids. Also contains 75 pages of recipes.

Lowna, Edward W.; Rusk, Howard A., The Helping Hand: Self-Help Devices, Institute of Rehabilitation Medicine, 400 East 34th Street, New York, New York (10016), 1963

Pictures and discusses, in addition to assistive aids, the organization of storage areas in the kitchens, selection of work surfaces and sink and stove areas.

McCullough, Helen E.; Farnham, Mary B., Kitchens for Women in Wheelchairs (Extension Service in Agriculture and Home Economics Circular No. 841), Cooperative Extension Service, University of Illinois, Urbana, Illinois (61901), 1961. Available from: Information Office, College of Agriculture, Mumford Hall, University of Illinois, Urbana, Illinois (61803)

Construction details for three major work centers (sink, range and food preparation areas), for storage units and for adaptations of commercial cabinets. Includes basic arrangements for U or L-shaped and corridor type kitchens.

McCullough, Helen E.; Farnham, Mary B., Space and Design Requirements for Wheelchair Kitchens, (Bulletin 661), Cooperative Extension Service, University of Illinois, Urbana, Illinois (61801), 1960. Available from: Information Office, University of Illinois, Urbana, Illinois (61803)

Musson, Noverre; Heusinkveld, Helen, Buildings for the Elderly, Reinhold, New York, 1963

Written mainly for architects and builders, laymen and community leaders interested in providing adequate, satisfying

housing for older people, and the elderly planning to build or resettle. About half the book is devoted to photographs, architectural plans and drawings of existing or planned homes in the United States.

Rusk, Howard A., et. al., A Manual for Training the Disabled Homemaker, (Rehabilitation Monograph VIII), New York University Medical Center, Institute of Physical Medicine and Rehabilitation 1955. Available from: Rehabilitation Medicine Monographs, Institute of Rehabilitation Medicine, 400 East 34th Street, New York, New York (10016), \$2.00

Wheeler, Virginia Hart, Planning Kitchens for Handicapped Homemakers (Rehabilitation Monograph XXVII), New York University Medical Center, Institute of Physical Medicine and Rehabilitation, 1965. Available from: Publications Unit, Institute of Rehabilitation Medicine, 400 East 34th Street, New York, New York (10016), \$2.00

A publication designed for severely disabled women who require substantial changes in their kitchens if they are to return to full-time housekeeping. The 82-page monograph includes floor plans and photographs and discusses the most ideal situations for wheelchair and ambulatory homemakers compromises on space and money and individual differences to be considered.

\_\_\_\_\_, The Wheelchair in the Kitchen, Paralyzed Veterans of America, Suite 301-W, 7315 Wisconsin Avenue, Washington, D.C. (20014), \$2.50

A guide to easier living for the handicapped homemaker. Gives advice on the construction and/or alteration of a kitchen for the wheelchairbound homemaker.

## RECREATION

Avedon, Elliott M., Recreation and Mental Retardation (Public Health Service Publication No. 1512), 1966. Available from: U.S. Government Printing Office, Washington, D.C. (20402), \$.15

Barclay, Vleda, The Adaptation of Recreational Activities for Men, G. Bell and Sons, Ltd., London, England, 1956

A discussion of recreational activities adapted for rehabilitation after injury. The recreational activities discussed are walking and running, vaulting, cycling, swimming and dancing. Each one is discussed in detail in regards to the handicapped person's capabilities and limitations.

Carrol, Arthur J., Efforts to Adapt National Forest Recreation Areas for Use by the Handicapped (Paper presented at the Congress of Parks and Recreation, Anaheim, California), 1972

Case, Maurice, Recreation for Blind Adults: Organized Programs in Specialized Settings, Charles C. Thomas, 301-327 East Lawrence Avenue, Springfield, Illinois (62703), \$8.75

Chapman, Frederick M., Recreation Activities for the Handicapped, Ronald Press Co., New York, New York, 1960

A reference book of activities for the handicapped person. It includes games, hobbies, dance, music and sports that can be enjoyed in a day-to-day program for all types of handicaps. One section of the book gives insight into the nature of a handicapped person's behaviour pattern and how to cope with it. An annotated reference is included.

Dethlefs, Ted, "Modifications for Handicapped Persons in Outdoor Recreation," Therapeutic Recreation Journal, Second Quarter, 1971

Dorward, Barbara, Teaching Aids and Toys for Handicapped Children, Council for Exceptional Children, 1411 S. Jefferson Davis Highway, Arlington, Virginia (22202), 1960, \$1.75

Franklin, C. C., Freeburg, William H., Diversified Games and Activities of Low Organization for Mentally Retarded Children, Southern Illinois University, Available from: Information Center, Recreation for the Handicapped, Southern Illinois University, Carbondale, Illinois

Gordon, Ronnie, The Design of a Pre-school Therapeutic Playground: an Outdoor "Learning Laboratory." (Rehabilitation Monograph 47), Institute of Rehabilitation Medicine, New York University Medical Center, 400 East 34th Street, New York, New York (10016), 1972, \$4.50

This special playground was designed to provide maximum opportunities for pre-school handicapped children to interact with an outdoor environment, experiencing a variety of learning situations and peer relationships that would otherwise be difficult to achieve. Includes verbal descriptions, photographs, and line diagrams of the areas and equipment in the playground.

Hodgen, Earle, "Recreation Program for the Handicapped Needed," Illinois Parks Publication, March/April, 1968

Article points out lack of interest in many parks to make their facilities accessible to the handicapped. Lists recreational objectives for these people and the need to organize committees in order to accomplish these objectives. Provides a sound administrative program for conducting recreational facilities for the handicapped.

Hunt, Valerie, Recreation for the Handicapped, Prentice-Hall Inc., New York, New York, 1955

Concerned with recreation as it can be applied to the handicapped person. Seeks to indicate what specific needs of the disabled can be met through recreation. Discusses the general types of disabilities, how they handicap an individual and what recreational activities can be adapted to satisfy the basic human needs that are hindered by such disabilities.

Lunan, Bert, "Little Grassy Offers for Handicapped Campers," (Reprinted from Rehabilitation Record, January/February, 1968)

General information on the camping program of Little Grassy, an outdoor laboratory on recreation for the handicapped run by Southern Illinois University.

Park, David C., Therapeutic Program: A Community Responsibility, National Recreation and Park Association, Washington, D.C. 1970

Pomeroy, Janet, Recreation for the Physically Handicapped, Macmillan Co., New York, New York, 1964

The experiences learned at the Recreation Center for the Handicapped in San Francisco provided most of the information for the book. It discusses the principles, policies, and procedures needed to conduct a recreation program. It provides a good background of the types and number of handicapped indi-

viduals and the traditional attitude toward them. One of the sections deals with suggested modifications of facilities and equipment.

Schoenbohm, Wilko B., Planning and Operating Facilities for Crippled Children, Charles C. Thomas, 301-327 East Lawrence Avenue, Springfield, Illinois (62703), 1962, \$11.50

Part III of this book, "Planning a Camp for Crippled Children," (pp. 239-291) is mainly a discussion of preliminary planning for the residential camp, the various buildings to be included, and the planning for special facilities for swimming and recreational activities.

Walter, Felix, Sports Centers and Swimming Pools: A Study of Their Design with Particular Reference to the Needs of the Physically Disabled, Thistle Foundation, 1971. Available from: The Disabled Living Foundation, 346 Kensington High Street, London, W.14, England, One and one-half pounds

Considers in detail what modifications in planning and design would help disabled persons to participate in or watch recreational activities. Based on visits to centers in Britain, Finland, Norway, and Sweden.

\_\_\_\_\_, Easter Seal Guide to Special Camping Programs, National Easter Seal Society for Crippled Children and Adults, 2023 West Ogden Avenue, Chicago, Illinois (60612), 1968, \$1.50

Includes sections on camp site selection, buildings and facilities and health and safety.

\_\_\_\_\_, Physical Education and Recreation for Handicapped Children (Proceedings of a study conference on research and demonstration needs), American Association for Health, Physical Education and Recreation, and National Recreation and Park Association, Washington, D.C.

\_\_\_\_\_, Training Needs and Strategies in Camping for the Handicapped, University of Oregon Press, Eugene, Oregon, 1973. Available from: The Center of Leisure Studies, University of Oregon, 1587 Agate Street, Eugene, Oregon (97403), \$3.50

With 241 pages, the soft-bound book offers a collection of 28 position papers by leading professionals in the field of camping. The papers cover the philosophy, development and operation of camping experiences for handicapped children. A selected bibliography is included.

National Association of Counties Research Foundation, Outdoor Recreation -- Community Action Program for Public Officials, National Association for Counties Research Foundation, 1968. Available from: National Association of Counties Research Foundation, 1001 Connecticut Avenue, Washington, D.C. (20036) (a series of 10 booklets)

Separate booklets on planning, legal aspects, organization, area-wide and multi-governmental opportunities, financing, technical and financial assistance, land acquisition and citizen support. Developed cooperatively with the Bureau of Outdoor Recreation, U.S. Department of the Interior.

National Conference on Areas and Facilities for Health, Physical Education and Recreation, Planning Areas and Facilities for Health, Physical Education and Recreation, Revised 1965, The Athletic Institute, Merchandise Mart, Chicago, Illinois (60654), \$5.00 paperbound, \$6.00 hard cover

Last revised in 1956, this edition published jointly by the Athletic Institute and the American Association for Health, Physical Education and Recreation contains much practical information on planning and construction. Of particular interest are: Appendix G, Requirements of the Aging and Disabled; Appendix H, a reprinting of the American Standard Specifications for Making Buildings and Facilities Accessible to, and Usable by, the Physically Handicapped; and Appendix I, Recommended Facility Adaptations for the Aging and the Disabled.

United Church Press, Site Selection and Development, Camps, Conferences, Retreats, United Church Press, 1505 Race Street, Philadelphia, Pennsylvania (19102), 1965, \$12.50

Although no specific mention is made of the special needs of the handicapped or aged, this book is a basic reference on all details of planning and construction, with the addition of checklists and a summary of standards to help builders.

Georgia Department of State Parks, Outdoor Recreation Facilities for the Disabled, Georgia Department of State Parks, Atlanta, Georgia (mimeographed)

Describes and illustrates proposed park for the handicapped at Long State Park, Georgia. Architectural as well as site plan are well-illustrated.

Illinois Department of Mental Health, Day Camping for the Trainable and Severely Mentally Retarded: Guidelines for Establishing Day Camp Programs, Illinois Department of Mental Health, Division of Mental Retardation Services, 401 S. Spring Street, Springfield, Illinois (62706), 1970

New York State Department of Conservation, Outdoor Recreation for the Physically Handicapped: A Handbook of Design Standards, New York State Department of Conservation, State Council of Parks and Outdoor Recreation, Albany, New York (12226), 1967.

Standards approved and adopted by the State Council cover adaptations that are recommended for existing parks and for all future construction of public outdoor recreation areas in New York State.

Washington State Department of Health, Guide to Planning and Equipping a Handicraft Facility for a Nursing Home Activity Program, Washington State Department of Health, 1964. Available from: Mrs. Vera H. McCord, Rehabilitation Education Service Unit, Washington State Department of Health, Public Health Building, Olympia, Washington (98501), checks to be made payable to Treasurer, State of Washington), \$2.00 plus 24 cents postage

U.S. Bureau of Outdoor Recreation, Outdoor Recreation Planning for the Handicapped (Technical Assistance Bulletin, April 1967), 1967. Available from: Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. (20402), \$.40

U.S. Forest Service, Inyo National Forest, Planning a Facility for the Handicapped: Mammoth Lakes campground, U.S. Forest Service. Available from: U.S. Department of Agriculture, U.S. Forest Service, Inyo National Forest, Mammoth Ranger District, Mammoth Lakes, California (93546)

U.S. Department of Health, Education and Welfare, Guidelines for Action: Developing Opportunities for the Handicapped in Recreation, Parks and Leisure Services, U.S. Department of Health, Education and Welfare, Social and Rehabilitation Services Administration, Washington, D.C. Available from: U.S. Government Printing Office, Washington, D.C. (20402)

Report which aims toward stimulating new careers in recreation and parks; excellent publication.

U.S. President's Council on Youth Opportunity, Camping Opportunities for Disadvantaged Youth: A Planning and Coordinating Guide, U.S. President's Council on Youth Opportunity, 1971. Available from: U.S. Government Printing Office, Washington, D.C. (20402), \$.75

## FURNITURE

Hoffman, Ruth, How to Build Special Furniture and Equipment for Handicapped Children, Charles C. Thomas, 301-327 East Lawrence Avenue, Springfield, Illinois (62703), 1971, \$6.50

Principles are presented that can be applied to building inexpensive equipment out of scrap wood with few tools.

Laging, Barbara, "Furniture Design for the Elderly," (Reprinted from Rehabilitation Literature, May 1966), National Easter Seal Society for Crippled Children and Adults, 2023 West Ogden Avenue, Chicago, Illinois (60612), 1966, \$.25

Identifies the needs of the elderly and relates these to the design and construction of furniture that is scaled to the older person's living space requirements. Included are suggestions on well-planned storage units.

## AIDS AND APPLIANCES

Agerholm, Margaret, ed., Equipment for the Disabled: An Index of Equipment, Aids and Ideas for the Disabled, National Fund for Research into Crippling Diseases, Vincent House, Vincent Square, London, S.W.1, England, 7 pounds, 7 shillings (plus postage and packing). Available from: International Society for Rehabilitation of the Disabled, 219 East 44th Street, New York, New York (10017), \$20.00

Sections of the four volumes cover: home adaptations, and home planning, furniture of various sorts, hoists, and lifting equipment, communication aids, kitchen and homemaking equipment and suggestions, among others. Suppliers listed are mainly those in Great Britain. Supplement sheets updating information in the various sections are to be issued twice yearly by the National Fund on a continuing subscription basis.

Bare, Clari; Boettke, Eleanor; Waggoner, Neva, Self-Help Clothing for Handicapped Children, National Easter Seal Society for Crippled Children and Adults, 2023 West Ogden Avenue, Chicago, Illinois (60612), 1962, \$.50

Boettke, Eleanor M., Suggestions for Physically Handicapped Mothers on Clothing for Preschool Children, School of Home Economics, University of Connecticut, Storrs, Connecticut (06268), 1957, \$.50

Write for the school's catalog on Rehabilitation of Handicapped Homemakers, listing teaching films, publications, and exhibits.

Bray, Peter; Cunningham, Don M., "Vehicles for the Severely Disabled" (Reprinted from the April 1967 issue of Rehabilitation Literature), National Easter Seal Society for Crippled Children and Adults, 2023 West Ogden Avenue, Chicago, Illinois (60612), 1967

Danzig, Aaron L., Handbook for One-Handers, Federation of the Handicapped, 211 West 14th Street, New York, New York (10011), 1966, \$1.00

DeRenzy, George Webb, Enchiridion: or A Hand for the One-Handed, 1822. A facsimile edition, reprinted January 1962 by Elizabeth Licht, publisher, 360 Fountain Street, New Haven, Connecticut (06515), \$2.00 (of historical interest)

Fahland, Beverly, Wheelchair Selection: More than Choosing a Chair on Wheels, American Rehabilitation Foundation, Minneapolis, Minnesota

Listing of some of the criteria necessary when choosing a wheelchair for an individual. Various types of wheelchairs are illustrated and modifications and special designs are indicated.

Frost, Alma, Handbook for Paraplegics and Quadriplegics, National Paraplegia Foundation, Available from: Single copies to paraplegics and quadriplegics free, single copies to non-disabled for \$.25 for postage and handling costs (2-25, \$.25; 26-50, \$.50; 51 and up \$1.00 per carton (170) or fraction thereof; multiple copies for shipping costs plus handling costs); pick up free at National Paraplegia Foundation, 333 North Michigan Avenue, Chicago, Illinois (60601)

Useful information for all confined to bed, wheelchair or crutches, covers equipment, home care, exercise and activities, gadgets, sources of supply and general useful information, intended primarily for paraplegics, quadriplegics and their families but also useful to staff in gaining insight into patient problems.

Gardner, Warren H., Text-Manual for Remedial Handwriting, Interstate Printers and Publishers, 19 North Jackson Street, Danville, Illinois (61832), 1966, \$2.00 (Remedial Handwriting Practice Tablet, designed for use with Text-Manual \$.50)

Hallenbeck, Phyllis N., "Special Clothing for the Handicapped," (Reprinted from the February 1966 issue of Rehabilitation Literature), National Easter Seal Society for Crippled Children and Adults, 2023 West Ogden Avenue, Chicago, Illinois (60612), \$.10

Jay, P.E.; Walker, E.; Ellison, A., Help Yourselves: A Handbook for Hemiplegics and Their Families, Butterworth and Company, London, England, 1966. Available from: Appleton-Century-Crofts, 440 Park Avenue, South, New York, New York (10016), \$1.75

Kamenetz, Herman L., The Wheelchair Book: Mobility for the Disabled, Charles C. Thomas, 301-327 East Lawrence Avenue, Springfield, Illinois (62703), 1969, \$14.75

Lauder, Edmund, Self-Help for the Laryngectomee, 1968. Available from: Edmund Lauder, 6334 Dove Hill Drive, San Antonio, Texas (78238) at \$1.95 a copy (less in quantity lots)

Lawton, Edith Buchwald, MA, APTA, Activities of Daily Living: Testing, Training and Equipment (Rehabilitation Monograph X), Institute of Physical Medicine and Rehabilitation, New York University Medical Center, 400 East 34th Street, New York, New York (10016), \$1.00

Intended primarily but not exclusively for physical therapists, with focus on the general principles underlying the teaching and testing of activities of daily living, with the equipment involved in such a program.

Lee, Mathew; Pazenik, Dorothy; Dacso, Michael, Wheelchair Prescription (PHS Rehab Guide Service 1, Publication No. 1666), U.S. Public Health Service, Division of Direct Health Services, 1967. Available from: U.S. Government Printing Office, Washington, D.C. (20402), \$.20

Lowman, Edward W.; Klinger, Judith L., Aids to Independent Living: Self-Help for the Handicapped, Blakiston Division, McGraw-Hill Book Company, 330 West 42nd Street, New York, New York (10036), 1969, \$39.00

This encyclopedic reference work is the culmination of almost two decades of testing, designing and development at the Institute of Rehabilitation Medicine, New York City, New York. There are 2,237 illustrations. Included in the nine main categories of various aids are: Part 3, Housing; Part 4, Furniture and Posturpedic Equipment; Part 5, Homemaking; and, Part 8, Transportation and Travel (including architectural barriers).

Lowman, Edward W.; Rusk, Howard A., "Self-Help Devices: Selection of Wheelchairs," (Reprinted from Postgraduate Medicine, August 1960)

Series of six articles concerned with selection of wheelchairs. The first covers the standard Universal models, giving measurements and general information, with subsequent articles discussing custom models and various modifications of the standard model. Good article for general information on wheelchair design.

Rosenberg, Charlot, Assistive Devices for the Handicapped, American Rehabilitation Foundation and the National Medical Audiovisual Center of the National Library of Medicine, 1968. Available from: American Rehabilitation Foundation, 1800 Chicago Avenue, Minneapolis, Minnesota (55404), \$3.50 (special rates on large orders)

Wilshire, E. R.; Hollings, E. M. et.al., Equipment for the Disabled, Third Edition, National Fund for Research into Crippling Diseases, Vincent House, Vincent Square, London, S. W. 2, England 1972. Available from: International Society for Rehabilitation of the Disabled, 219 East 44th Street, New York, New York (10017)

This new edition is being prepared as a series of nine booklets each on a different subject. Volumes will deal with wheelchairs and outdoor transport, communications, home management, clothing and dressing, personal care, gardening and leisure housing and furniture, hoist and walking aids, and the disabled child. It is intended that one all nine booklets are available they will be revised, updated and reissued as a complete series. Based on two earlier editions, this series is being compiled at Mary Marlborough Lodge in England

Wilshire, E.R.; Hollings, E.M., et. al., Wheelchairs and Outdoor Transport: A Special Edition, The National Fund for Research into Crippling Diseases, Vincent House, Vincent Square, London, S.W.2, England, 1972, 1.05 pounds (approximately \$2.50)

This is the first of nine-part series of booklets comprising Equipment for the Disabled, published by the National Fund for Research into Crippling Diseases (see listing above).

Works, Nora, You, On Crutches (How to Help Them Help You), Carlton Press, 84 Fifth Avenue, New York, New York (10011), 1968, \$2.50

Yuker, Harold E.; Cohn, Alfred; Feldman, Martin A., The Development and Effects of an Inexpensive Elevator for Eliminating Architectural Barriers in Public Buildings (VRA Demonstration Grant No. RD-1651), Hofstra University, Program for Higher Education of the Disabled, Hempstead, Long Island, New York (11550), 1966

Describes the project to design, develop, install and evaluate an inexpensive prototype wheelchair lift for use in public buildings; architectural specifications are included in the appendix.

Zimmerman, Muriel E., Self Help Devices for Rehabilitation, Part I and II, William C. Brown and Company, 135 Locust Street, Dubuque, Iowa, Part I - \$4.75; Part II - \$4.00

American Automobile Association, Vehicle Controls for Disabled Persons, American Automobile Association, Available from: Traffic Engineering and Safety Department, AAA, 1712 G Street, N.W., Washington, D.C. (20005)

Brief descriptions of vehicle controls for disabled persons, plus a list of sources. For information only, it does not make evaluations.

American Heart Association, Do It Yourself Again: Self-Help Devices for the Stroke Patient, American Heart Association, 444 East 23rd Street, New York, New York (10010), 1965. Available from: Your local Heart Association

Occupational Therapy Service, Institute of Rehabilitation Medicine, Rehabilitation Equipment and Devices Constructed in Wood, (Rehabilitation Monograph 36), Institute of Rehabilitation Medicine, Occupational Therapy Service, 400 East 34th Street, New York, New York (10016), 1968, \$2.00 (Checks made payable to New York University Medicine Center)

Instructions for making exercise equipment, ADL Devices and Occupational Therapy Project Kits. For further information on purchasing devices shown in the manual, write to: Mr. Elvin K. Stauffer, Stauffer Wood Products, Route 3, Pine Grove, Pa. (17963)

United Cerebral Palsy of Central Indiana, Please Help Us Help Ourselves, United Cerebral Palsy of Central Indiana, 615 North Alabama Street, Indianapolis, Indiana (46204), \$2.00

A manual illustrating the fabrication of easily made, inexpensive adaptive equipment.

We, The Handicapped, Inc., Elevators and Ramps, Detroit, Illinois, 1957

Elevators, chair lifts and ramps are described with illustrations; details of a homemade stair elevator are included.

## DIRECTORIES

Edgington, Eugene S., Ph.D., "Colleges and Universities with Special Provision for Wheelchair Students," Journal of Rehabilitation, May/June 1963, Volume 29, No. 3, pp. 14-15, National Foundation, 333 North Michigan Avenue, Chicago, Illinois (60601), \$.25 postage and handling

Report in tabular form of 58 colleges and universities with special provisions for wheelchair students.

Hall, Robert E.; Lehman, Eileen F., A Directory: Some Colleges and Universities with Special Facilities to Accommodate Handicapped Students, U. S. Department of Health, Education and Welfare, Office of Education, Washington, D.C., 1967

Sawyer, Ernest M., ed., Where Turning Wheels Stop, Second Edition, Paralyzed Veterans of America, Inc., Suite 301-W, 7315 Wisconsin Avenue, Washington, D.C. (20014), 1968, \$1.00

Lists hotels and motels and restaurants accessible to wheelchair users plus other traveling tips.

\_\_\_\_\_, Directions for the Preparation of a Guide for Disabled Persons in Towns and other Built-up Areas, International Society for Rehabilitation of the Disabled, International Information Center on Technical Aids, 219 East 44th Street, New York, New York (10017), 1966, \$1.00

\_\_\_\_\_, Directory of Camps for the Handicapped, National Easter Seal Society for Crippled Children and Adults, 2023 West Ogden Avenue, Chicago, Illinois (60612), 8th Edition, 1973, \$1.00

\_\_\_\_\_, Directory of Resident Camps for Persons with Special Needs, National Easter Seal Society for Crippled Children and Adults, 2023 West Ogden Avenue, Chicago, Illinois (60612), \$1.00

\_\_\_\_\_, The Directory for Exceptional Children: A Listing of Educational and Training Facilities, Seventh Edition, Porter Sargent, 11 Beacon Street, Boston, Massachusetts (02108), 1972, \$14.00

\_\_\_\_\_, Guidebooks for Handicapped Travelers, Third Edition, President's Committee on Employment of the Handicapped, Washington, D.C. (20210)

The pamphlet contains a list of the metropolitan guide-books for 85 cities plus several foreign countries as well as the addresses from which copies of the individual guidebooks may be obtained, usually for no charge.

\_\_\_\_\_, Highway Rest Areas Facilities . . . Designed for the Handicapped Travelers, President's Committee on Employment of the Handicapped, Washington, D.C. (20210), no charge, 1971

Lists rest areas, mainly along the Interstate Highways, which are accessible to and usable by the handicapped.

\_\_\_\_\_, "Housing and Home Services for the Disabled in the U.S.," Rehabilitation Gazette, Volume 15, 1972, pp. 6-12 Available from: Rehabilitation Gazette, 4502 Maryland Avenue, St. Louis, Missouri (63108)

Lists selected information for the handicapped including housing with or without attendant care, nursing homes, and hospitals with special facilities, public housing, foster homes, new towns, insurance programs, services related to housing, etc.

National Council on the Aging, A National Directory on Housing for Older People, National Council on the Aging, 315 Park Avenue, South, New York, New York (10010), 1965, \$5.00

While the main portion of this book is devoted to the listing of housing designed or adapted to meet special needs of older people, the guide for selection and the checklist of basic considerations in selecting retirement housing would be useful to those planning housing of this type.

National Rehabilitation Association, "Directory of Rehabilitation Facilities," Journal of Rehabilitation, July/August, 1968, Volume 34, No. 4. Available from: Association of Rehabilitation Centers, Inc., 7979 Old Georgetown Road, Washington, D.C. (20014), \$1.35 a copy

Lists rehabilitation facilities in the United States and Canada with pertinent data.

President's Committee on the Employment of the Handicapped, Guide to National Parks and Monuments for the Handicapped Tourists, U.S. Department of Labor, Washington, D.C.

A must for all handicapped people who travel. Describes in detail the accessibility features of all national parks and monuments.

Illinois Department of Conservation, State Park Guide for the Handicapped, Department of Conservation, Division of Parks and Memorials, State Office Building, Springfield, Illinois (62706), 1972

Illinois' 82 parks and 29 historic memorials are rated for their accessibility to the physical handicapped in a guidebook.

U.S. Department of Interior, National Park Guide for the Handicapped, U.S. Department of Interior, 1971. Available from: U.S. Government Printing Office, Washington, D.C. (20402)

U.S. Department of Interior, Recreation Park Guide for the Handicapped, U.S. Department of Interior, National Park Service, 1971. Available from: U.S. Government Printing Office, Washington D.C. (20402)

Specific description of accessible areas on a state-by-state basis. Also lists other publications.

## LEGAL AND LEGISLATIVE PUBLICATIONS

Allen, Richard D., Legal Rights of the Disabled and Disadvantaged, Social and Rehabilitation Service, U.S. Department of Health, Education and Welfare, Washington, D.C., 1969

Dantona, Robert; Tesler, Benjamin, "Architectural Barriers for the Handicapped: A Survey of the Law in the U.S.," Rehabilitation Literature, February 1967, pp. 34-43

Findings and evaluations of legislative measures passed in regard to the standards set forth by the American Standards Association (now the USA Standards Institute) for making buildings and facilities accessible to and usable by the physically handicapped. Much of the legislation is inadequate in order to achieve the elimination of architectural barriers.

Schwartz, Edward M., "Recovery for Product Related Quadriplegia and Paraplegia," Case and Comment, Volume 77, No. 5, September/October 1972, pp. 21-28

Sorkin, Nathaniel, "Equal Access to Equal Justice: A Civil Right for the Physically Handicapped," Case and Comment, Volume 78, No. 2, March/April 1973, pp. 41-42

Trudeau, Elaine, ed., Digest of State and Federal Laws: Education of Handicapped Children, Council for Exceptional Children, 1411 South Jefferson Davis Highway, Arlington, Virginia (22202), 1971, \$7.50 (if purchased with the companion publication, State Law and Education of Handicapped Children: Issues and Recommendations, below, the price is \$9.75)

Weintraub, Frederick J.; Abeson, Alan R.; Braddock, David L., State Law and Education of Handicapped Children: Issues and Recommendations, Council for Exceptional Children, 1411 South Jefferson Davis Highway, Arlington, Virginia (22202), 1971, \$3.25 (see above)

\_\_\_\_\_, A Survey of State Legislation to Remove Architectural Barriers, The President's Committee on the Employment of the Handicapped, Committee on Barrier Free Design, Washington, D.C. (20210)

City of Rochester, New York, Architectural Barriers Legislation for Aiding the Handicapped from the Code of Rochester, New York, General Code Publishers Corporation, Spencerport, New York, 1967

National League of Cities, Department of Urban Studies, State and Local Efforts to Eliminate Architectural Barriers to the Handicapped, Vocational Rehabilitation Administration, U.S. Department of Health, Education and Welfare, Washington, D.C. November 1967

Describes and evaluates legislative and other official actions of state and local governments designed to eliminate architectural barriers. It examines activities and attitudes of certain nongovernmental agencies and private citizens as they relate to the effect of architectural barriers on people who are disabled. The report includes in-depth case studies of seven cities that have initiated or supported architectural barrier removal programs.

## FILMS

### All Things on Wheels Aren't Equal (14 min., color)

Film illustrates the architectural barriers a wheelchair student faces in most colleges, and is intended to show that physical handicaps need not be a handicap to obtaining a college education. Shows the design for an inexpensive elevator which can be installed on the outside of a building.

Available from: Program for the Higher Education of the Disabled, Hofstra University, Hempstead, L.I., New York

### Beating the Averages (30 min., color)

Narrated by Raymond Burr, film depicts the environmental barriers encountered by wheelchair victims as they attempt to move about in their day-to-day world, conventionally designed homes, office buildings, factories, etc.

Available from: Chief, Distribution Section, National A-V Center, Washington, D.C. (20409)

### Planning for the Handicapped (24 min., black/white)

A Swedish film which shows improvements that can be made in buildings and streets if consideration is given to disabled persons; and how buses and trains can, with some alterations, be made accessible to the disabled. Many handicapped persons now excluded from contact with the outside world could, through careful community planning, be given an opportunity to fully share the possibilities of modern life.

### Sound the Trumpets (22 min., color)

Dramatically depicts how everyday thoughtfulness in building construction effects millions of handicapped and aged, as well as non-handicapped persons. It emphasized how sensible planning and construction can bring savings and benefit to the community and its citizens, in everything from increased church attendance and retail sales, to lowered welfare costs and building insurance and maintenance costs. A thought-provoking community education and action.

Available from: International Rehabilitation Film Library, 219 East 44th Street, New York, New York (10017)

The Surest Test of a Civilization . . . . is to be found in its architecture (William H. Prescott, historian, 1796-1859) (10 min., color)

Funded by the Washington/Alaska, HEW, the idea for the film was conceived by Barbara L. Allan, herself a paraplegic, while studying Graphic Design at the University of Washington. The camera traces a paraplegic wheelchair user just leaving a rehabilitation unit, ready to enter the community, and her subsequent encounters with barriers. Somewhat light-hearted, yet moving, there is no dialogue, but an original musical score composed especially for it helps to interpret the action.

Available from: National Easter Seal Society for Crippled Children and Adults, 521 2nd Avenue West, Seattle, Washington (98119)

#### TV FILM SPOTS

Educational film spots intended for showing on public service time contributed by television stations.

#### Breaking the Barriers (60 seconds, black/white, No. 5)

Designed to help create community awareness, this film spot dramatically visualizes the architectural barriers problem.

Available from: National Easter Seal Society for Crippled Children and Adults, 2023 West Ogden Avenue, Chicago, Illinois (60612)

#### Build for a Need (60 seconds, black/white, No. 14)

Dramatizes the plight of millions of handicapped persons. Shows how a person in a wheelchair is impeded or prevented from entering a building because of stairs, revolving doors and other barriers; suggests also that crutch-users, heart patients and our senior citizens face equally frustrating barriers.

Available from: National Easter Seal Society for Crippled Children and Adults, 2023 West Ogden Avenue, Chicago, Illinois (60612)

#### Architectural Barriers (60 seconds, color) (16mm, sound-optional)

This film is designed to accomplish two things (1) to describe visually some of the barriers which make mobility for the handicapped difficult, and, (2) to suggest what can

be done to eliminate these barriers. Includes a 10-second black end for superimposition of the local sponsoring group.

Available from: The National Paraplegia Foundation, Greater Milwaukee Area Chapter, 4121 North Larkin Street, Milwaukee, Wisconsin (53211)

Architectural Barriers (color)  
(16mm, sound)

Series of 10, running from 10-55 seconds.

Available from: GECH, State of Illinois, Room 2800, 188 West Randolph Street, Chicago, Illinois (60601).
